## 2. How to join the game?

After click the Minecraft Launcher you will see this image

Choose multiplayer then click add server

Server Name:Just write whatever name you like

Server address: <IP of the host>

Then click done

Finally please click Join Server and enjoy the game!

## A small reminder

- In the game, W, A, S, D are your good friends. You need them to move
  - To move forward, press W
  - To move backward, press S
  - To move left and right, press A or D
- While you want to jump, press the spacebar.
- If you want to look around, just move the mouse.
